

Name: Olivia Godfrey

Monsoon season is great! I get to listen to droplets of water everyday!

I get to play in the rain, the river starts to form a little. It's a beautiful thing to hear. It feels so good on my hair.

The next day the soil is moist. All the animals have a relief that it's raining the plants are singing. Monsoons make most happy including native. Thank you so much earth. We'll keep you alive mother earth.
